CHAIR SELECTOR

COMFORT, REAL WOOD & AN ENGLISH TRADITION

The name of Cintique has become synonymous with British quality and real comfort. Established in 1908 Cintique is proud to remain a privately owned company.

We maintain a strong environmental policy, purchasing solid ash timber from the managed forests of Europe and Australia. Great care is taken in the manufacturing process in controlling factory emissions and reducing energy waste whilst maintaining a clean and organised factory environment for all employees.

The use of top quality materials allied to the highest levels of craftsmanship, passed on through generations of furniture makers in the heart of London, ensures a finished product that you will be proud to own.

Top quality solid ash timber is used for all showwood frames. These are manufactured using traditional joinery techniques, including mortise & tenon joints, to ensure each piece of furniture will stand the test of time.

Cintique have a unique spring system on selected chairs that supports the seat cushions perfectly while offering a sprung edge for durability and true comfort for many years to come.

made in the UK

BUCKINGHAM CHAIR

The Buckingham chair has a reversible seat cushion, and offers a choice of three seat heights. It is available with or without side panels

	SMALL	AVERAGE	TALL

HEADRESTS

Headrests are available in two styles for all Cintique chairs.

DELUXE HEAD SUPPORT

HARMONY NECK PILLOW

SHOWWOOD FRAMES

Every piece of timber we use is a unique material designed and produced by nature itself. Therefore we cannot guarantee an exact match between different pieces.

The wood can be cleaned with a dilute solution of warm soapy water and vinegar and then buffed with a soft cloth. Do not use spray and other polishes which might make future repairs to the surface difficult.

FINISHES AVAILABLE ON SOLID ASH

FABRICS & FINISHES

Choice is everything. Words cannot really describe the visual and tactile pleasures of choosing one of our 150 quality fabrics.

Cintique provide you with an extensive range of carefully selected fabrics which can be viewed in your local Cintique retail stockist, along with a choice of six rich finishes to the Ash showwood frames.

If in the unlikely event of you not being able to find a fabric to suit your furnishing scheme, we will be pleased to make your furniture in your own fabric providing it meets our exacting standards and the

requirements of the Furniture and Furnishings (Fire Safety) Regulations 1988.

Remember to order all your furniture together as we are unable to guarantee an exact match due to slight variations in the colour of the dyes.

All foams, fillings and fabrics used in our furniture conform to the current safety requirements, Furniture and Furnishings (Fire Safety) Regulations 1988.

ACTION CHAIRS

Motorised and manual reclining chairs must be used with caution. Children and animals should be kept clear when operating - remember to warn visitors to take care.

Frequently check the cables for wear or entrapment. Unplug when not in use.

Do not sit on the footrests or backs of the chairs

UPHOLSTERY CARE

Pile Fabrics.

All pile fabrics such as chenille or Dralon® will flatten and shade with use. Creases will form where fillings constantly flex, eg seat and back cushions. This is normal on areas which receive most pressure such as arm pads, footrests and back slats. Also, depending on the yarns used in the construction of the fabric, light is reflected and gives the appearance of colour variation.

These characteristics are common to all pile fabrics and should not be regarded as fabric faults. They can be minimised by regular brushings with a soft brush in the direction of the pile and steaming when the pile has flattened.

Other Fabrics.

Vacuuming and using a gentle brush should be sufficient to keep the upholstery in good condition.

Fabric Treatments.

If your furniture has had an after sale soil treatment supplied by a third party, we as manufacturers cannot accept liability for problems caused to the fabric in any way by this treatment.

Such treatments should always be pre-tested on a hidden part of the furniture for the fabric compatibility before application.

Any fabric protection problem must be referred to the agent who supplied the application.

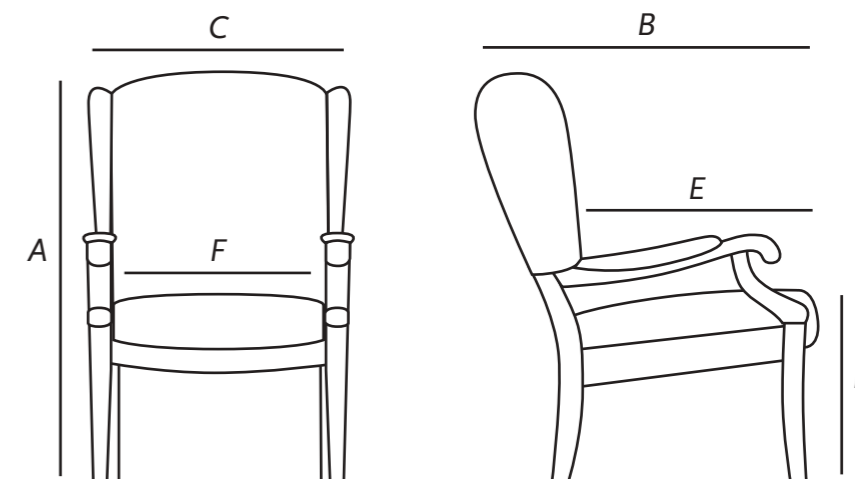

Please Avoid

Positioning your furniture in direct sunlight which will fade the fabrics and the wood polish.

Sharp objects such as jewellery, toys and pet claws can damage the fabric.

MEASUREMENTS

- A = Overall Height
- B = Overall Depth
- C = Overall Width
- D = Seat Height
- E = Seat Depth
- F = Seat Width

Cintique Limited reserves the right to withdraw models and fabrics and to amend specifications without notice. Sizes quoted are approximate as each item is made by hand. Colour of the fabrics and wood polishes as shown are as accurate as possible but allowances should be made for photography, reproduction and printing. Always select your furniture from fabric swatches and wood samples provided in Cintique retail stockists. Wood is a natural product, therefore the finish may vary slightly from your retailer's samples.
