Solid Oak Furniture

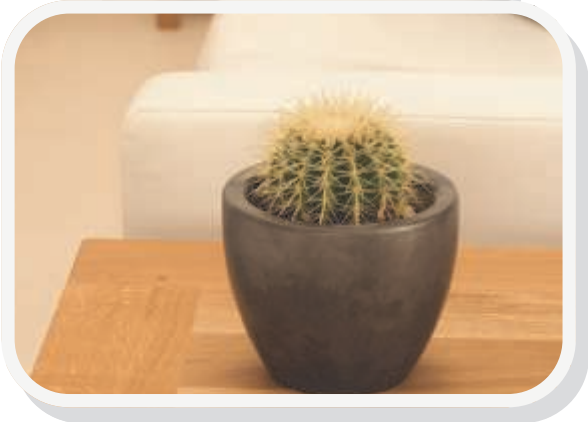

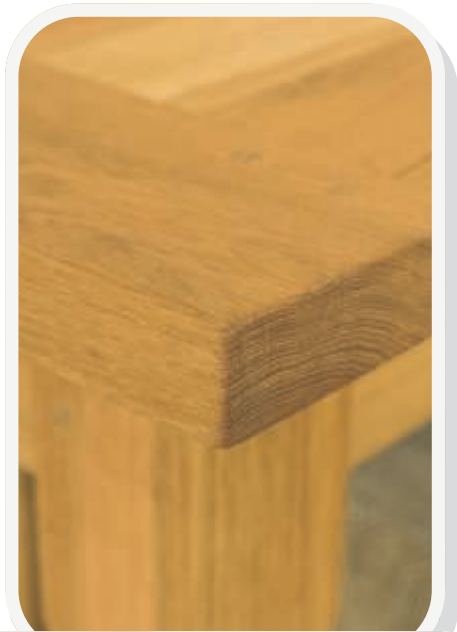

Your home is important for so many reasons. It's your own personal space where you can have complete control over the way it looks and the way it feels. This brochure aims to show you the timeless beauty and unique individuality of our oak furniture. The design style and quality of our furniture will enhance your home today and in the future.

For centuries European oak with its characteristic grain and its inherent strength has been used in the manufacture of quality furniture. Our oak furniture is made from 100% solid European oak sourced from forestry managed sustainable sources with only the finest cuts of timber used in all our furniture.

With a comprehensive selection of cabinets, bookcases, dining tables, dining chairs and occasional items, all available in a choice of finishes and a selection of upholstery for the dining chairs, the versatility of this collection will suit both the modern and traditional home interior. Colour boards and dining chair swatches are available to assist you in your choice.
